

I am pleased to announce that I will be offering a Lightroom Class for Beginners beginning in January. This class will cover everything from basic concepts of Lightroom, to photo organization, importing photos, processing them, printing and exporting. This class will run 5 weeks on Tuesday afternoons, beginning Jan 11<sup>th</sup> and ending on Feb 8<sup>th</sup>. The class will be held in the Beardsley Club Classroom from 12:30-3:00 each Tuesday.

The class will be based on the latest release of ***Lightroom Classic*** CC – the subscription version. If you have an older version, some of the capabilities discussed will not be available to you.

The class will be a mixture of presentation and demonstration. You are welcome to bring your laptop and to try things out as we discuss them, but be aware, the class agendas will be very full, and I can't slow things down to help you with your computer if you are having problems. (I'm happy to help after class if you're stuck on something).

The class will be \$20 per student payable when you register for the first session. You will receive printed handout material for taking notes and to take with you. There will be approximately 12-13 hours of instruction. Please sign up on the club website on the Workshop Calendar. You must sign up for all five sessions to reserve your seat.

Instructor: David Pickles
