

Use Adobe Elements Premiere to Create a Photo Slide Show

Level: Beginner/Intermediate

Do you have a collection of photographs you would like to share with family, friends, or at a Photography West weekly meeting? This workshop will demonstrate how to insert your photos and video clips in Adobes Elements Premiere, set time and transition between slides, how to add text, music, and/or narration (audio files), and where you can obtain soundtracks.

Prerequisite: None

If you are interested in this workshop shop also consider the the workshop “Technical and Creative Considerations When Creating a Photo Slide Show”.

Instructor: Ron Appelbaum
