

Photo Dry Mounting

Learn how to cut mats for your photos using the Fletcher 2100 mat cutter and a heated mounting press. You can use the Fletcher 2100 mat cutter to cut a single mat. All of these tools are in the Photo lab. You can bring your own 16" x 20" mat or purchase one at the club for a \$1.75 fee (cost of the mats) collected during class.

Prerequisite: None

Instructor: Greg Swinney
