

Technical and Creative Considerations When Creating a Photo Slide Show

Level: Beginner/Intermediate

Would you like to create a stunning photo slideshow in lieu of “presenting” your collection of photographs? This workshop will cover all the ingredients to consider when you want to put together a slide show that will WOW the audience. Compositional aspects will include but are not limited to;

- Putting together and narrating a storyline
- Selection and number of photographs to include
- Format
- Methods to transition from slide to slide
- Type and size of font to use (if any) in text overlays
- Selecting a soundtrack
- Introduction and Extra slides

Prerequisite: None

In a followup to this class the club is offering a workshop on how to create a slideshow using Adobe Elements Premiere

Instructor: Cliff Robinson
