

CLASS NAME: iPhone Photography

GOAL: Increase Confidence and Ability to use your iPhone for Great Photography

PREREQUISITES: Own an iPhone, preferably version 11 or newer

This class will familiarize you with most of the functions of the iPhone camera and Photo app. This class will combine lecture with demonstration. An optional opportunity for hands-on practice with your own phone will be provided after the classroom portion.

Useful tips and techniques will also be covered that will help you use your iPhone camera for photos you may not have thought possible.

Each student will receive a copy of the class presentation for note taking and to take with you.

Class will be taught by David Pickles and the cost will be \$10. Please signup online on the club website.
